Z 2021 – Focusing on Suppliers

MARCH 2 – 5, 2021
INTERNATIONAL SUBCONTRACTING FAIR FOR PARTS, COMPONENTS, MODULES AND TECHNOLOGIES
Dear Sir or Madam:

In early March of 2021, the Z - Subcontracting fair will once again be the first important trade fair platform taking place for the supply industry in Germany and Europe. Here attention is placed on suppliers of middle-tier production stages as well as industry service providers. They face the challenges posed by new technologies and are making their presence felt on the market.

Visitors of the Z include mainly professionals representing the machinery and vehicle construction industry as well as interested parties from other segments of the metal and plastics processing industry.

Taking place right next door, the Intec focuses on machinery, manufacturing and automation technology. Its approx. 1,000 exhibitors include important customers and partners of suppliers. In 2019, the Z and Intec together drew 24,400 visitors from 41 countries.

We are expecting to have approx. 350 exhibitors on hand again in Leipzig in 2021. Make sure that your company is also on hand as a participant!

Best regards from Z’s project team

Dr. Deliane Träber, Kersten Bunke, Dr. Sigrid Richter and Ines Wollenberg
PORTFOLIO Z 2021

MATERIALS AND SEMI-FINISHED PRODUCTS
PARTS AND COMPONENTS
JOINTING, CONNECTING AND ASSEMBLY PROCESSES
PROCESSES AS TECHNOLOGICAL SUPPLY SERVICES
TOOLS AND EQUIPMENT
ELECTRICAL/ELECTRONIC ENGINEERING – PARTS, COMPONENTS, PROCESSES
INDUSTRIAL SERVICES

VISITORS

Source: Visitor survey during Z 2019

85% with decision-making powers
61% from surrounding region (up to 200km away)
39% travelled more than 200km
14% came from foreign countries

VISIONS MARKETS TRENDS

THE SPECIALIZED PROGRAM – TO THE POINT
Recognize trends and turn those into decisions.
Network and establish strategic partnerships.
Integrate innovations into production.

Conferences, symposiums, workshops – for transfer of knowledge and innovations
CONTACT - Business Meetings – International networking
Exhibitor Forum – where your projects are at the center of attention

SPECIAL EXHIBITS AS HOTSPOT FOR NEW TECHNOLOGIES
• Additive + Hybrid – Production and its transformation
• Sensors – On the way to intelligent production and smart products

Z - SUBCONTRACTING FAIR AWARD
Awarded for the first time during the Z 2019 – an award that draws considerable attention to innovative, economically and technically sophisticated solutions and products offered by suppliers. Start of competition: September 2020
ONE TICKET = TWO TRADE FAIRS

A PERFECT COMBINATION

The industry faces the challenge of having to merge the current manufacturing practices with a new technological dimension in production. The industrial transformation can only be tackled when all involved actors work together.

In conjunction with the Intec, the Z focuses on the integrated value added for the production of tomorrow.

EXHIBITION AREAS OF THE INTEC (SELECTION):

- MACHINE TOOLS
- SHEET METAL FORMING MACHINES
- PRESSES AND FORMING TECHNOLOGY
- TOOLS, PRECISION TOOLS, TOOL AND MOLD CONSTRUCTION
- AUTOMATED PRODUCTION AND ROBOTICS
- MATERIALS HANDLING TECHNOLOGY
- MEASURING AND TESTING EQUIPMENT, QUALITY MANAGEMENT SYSTEMS
