

## Exhibiting Italian companies

	COMPANY NAME	COMPANY ACTIVITY DESCRIPTION	WEBSITE
1	<b>ADVANCED ELECTRONIC BIOSYSTEM SRL</b>	AEBiosystem combines biomedical micro-electronics and data-analytics to facilitate the diagnosis and monitoring of infectious and / or viral pathologies.	<a href="http://www.aebiosystem.com">www.aebiosystem.com</a>
2	<b>ALMA SISTEMI SRL</b>	ALMA Sistemi Srl provides high level consultancy in the space and defence market. The activities spans from international Research & Technology Development projects to Earth Observation, Navigation Applications, Electrical and Mechanical Ground Support Equipment for satellite and payloads.	<a href="http://www.alma-sistemi.com">www.alma-sistemi.com</a>
3	<b>ALTRAN ITALIA SPA / CAPGEMINI ENGINEERING</b>	Capgemini Engineering brings together under a single brand an exceptional range of skills of the Capgemini Group: the Engineering and R&D services of Altran, a world leader. Capgemini Engineering can count on more than 52,000 professionals in over 30 countries around the world.	<a href="http://www.capgemini.com/it-it/">www.capgemini.com/it-it/</a>
4	<b>ASITALY SRL</b>	Asitaly srl is a company specialized in providing latest generation nanomaterials, graphene in its various forms, nanoparticles of many metals, carbon nanotubes, fullerenes, nanowires and nano-inks and recently also graphene supercapacitors, for research and industry in a wide range of applications.	<a href="http://www.asitaly.it">www.asitaly.it</a>

5	<b>ATLANTICA DIGITAL SPA</b>	Atlantica Digital operating in the Telco, Industry, Transport, Utilities and P. A. sectors. Atlantica designs and builds highly innovative software solutions and secure IT infrastructures in the field of Smart Metering, Digital Solution, Machine Learning, IoT, Cyber Security and Next Generation SOC.	<a href="https://www.atlantica.it/en/home-eng/">https://www.atlantica.it/en/home-eng/</a>
6	<b>CELAB SRL</b>	Testing laboratory - environmental tests- electromagnetic compatibility- military-aerospace- civil. Ce marking notified body	<a href="https://celab.com/en/">https://celab.com/en/</a>
7	<b>CENTRALE VALUTATIVA SRL</b>	Central Evaluation offers precision agriculture services based on satellite images. The TETHYS Smart Farming service is made available to farmers and other entities for a more modern and rational management of the company and for greater environmental sustainability of production.	<a href="http://www.tethysfarming.com">www.tethysfarming.com</a>
8	<b>GMATICS SRL</b>	Development and provision of geo-information application services that make use of techniques and Artificial Intelligence to extract information from different geospatial data sources and integrate them with socio-economic data in predictive models for the management of smart cities and infrastructures.	<a href="http://www.gmatics.eu">www.gmatics.eu</a>
9	<b>IMT SRL</b>	IMT Srl is a forward-looking company focused on three main types of activities: Space, Parts Engineering and Satellite IoT solutions. IMT Srl can offer to the market 10very innovative and competitive solutions th11at meets the performance required for a wi12de range of applications.	<a href="https://www.imtsrl.it/">https://www.imtsrl.it/</a>
10	<b>INTECS SOLUTIONS SPA</b>	Intecs 13Solutions offers services, designs and develops applications, tools, software, hardware components and products for the Aerospace, Defense, Transport, Finance, Telecommunications and Smart Systems markets in collaboration with the main Industries, Organizations, Universities, Research Centers.	<a href="http://www.en.intecs.it/">http://www.en.intecs.it/</a>
11	<b>INTERAGENS SRL</b>	Interagens has been offering since 2006 software and multimedia development services, artificial intelligence, data analysis, research and development, graphic design and 2D animation, applied to the fields of video games, communication, and training.	<a href="http://www.interagens.com/">http://www.interagens.com/</a>
12	<b>LATITUDO 40 SRL</b>	Urban Data Analytics Platform, operates basing on satellite imagery, artificial intelligence and geospatial analysis, to make simple and effective climate action plans and offers better quality of life. That is to say, a urban digital twin, an environment where you can simulate "what-if" scenarios	<a href="http://www.latitudo40.com/">http://www.latitudo40.com/</a>

13	<b>MICROSIS SRL</b>	<p>MICROSIS is an Italian company, operating in the field of</p> <ul style="list-style-type: none"> <li>•Power electronics</li> <li>•RF (microwave) power amplifiers for space application (ground segment)</li> <li>•Control logic technology: hardware , firmware, software</li> <li>•Electromagnetic compatibility control (EMC, EMP)</li> <li>•Manufacturing and installation of anechoic c</li> </ul>	<a href="http://www.microsis.it/default.asp?v_lingua=eng">http://www.microsis.it/default.asp?v_lingua=eng</a>
14	<b>MILLENNIALS SPA</b>	<p>Millennials Spa is a holding oriented towards the enhancement and growth of successful entrepreneurial experiences. We have various entities within the group, including startups with different profiles. In this case we intend to present Cuc.bio, a true online agricultural market in the Lazio region.</p>	<a href="https://millennialspa.it/">https://millennialspa.it/</a>
15	<b>NIDES SRL Start-up Innovativa</b>	<p>Nides is an innovative startup that works on new generation ICT products with the main objective of making industrial process controls more efficient, guaranteeing cost and energy savings, as well as increased productivity and yields.</p>	<a href="https://www.nidesoftware.com/en/nides-software/">https://www.nidesoftware.com/en/nides-software/</a>
16	<b>OPV SOLUTIONS SRL</b>	<p>OPV Solutions operates in the industrial and energy engineering sector offering high added value services to support innovation and process optimization. Since 2020, it has developed as car manufacturer, specialized in the creation of solutions for the sustainable urban mobility.</p>	<a href="https://opvsolutions.eu/en/">https://opvsolutions.eu/en/</a>
17	<b>PROGETTI SPECIALI ITALIANI SRL</b>	<p>PSI Srl operates in the Aerospace and Defence Sector The turnover is about 20 MEuro with about 200 employees PSI has a set of prestigious National and International Customers for which developed</p> <ul style="list-style-type: none"> <li>• Nano/Microsatellites for Dual Use application and relevant Payloads</li> <li>• UAV system, payloads and applicat</li> </ul>	<a href="http://www.psi-space.eu/">http://www.psi-space.eu/</a>
18	<b>PROGRESSIVE SYSTEMS SRL</b>	<p>Progressive Systems is an Italian company founded in 2006, offering solutions aimed at simplifying the use of earth observation data. Our services are directed to a wide range of public and private actors, both from inside and outside the EO sector.</p>	<a href="http://www.progressivesystems.it">www.progressivesystems.it</a>
19	<b>RL3 srl</b>	<p>RL3 started its activities in 2004, we can define ourselves as a central purchasing body, with scientific and technological expertise, which manages purchases, for the Public Administration, Universities, Defense, Research Centers and for private companies in all segments including Space.</p>	<a href="http://www.rl3.it">www.rl3.it</a>

20	<b>SAND BIRCH STUDIO Srls</b>	Sand & Birch Studio provides design and communication services: product and interior design, UI/UX, integrated branding, digital marketing, modeling, 2D/3D video-animation for e-training, dissemination and advertising.	<a href="http://www.sandbirchstudio.com">www.sandbirchstudio.com</a>
21	<b>SENSOSAN SRL</b>	Our mission is to improve people's quality of life. We do that by means of Intelligent Nebulizers and through scented, sanitizing and functional fragrances for the stimulation of brain plasticity.	<a href="https://en.sensosan.it/">https://en.sensosan.it/</a>
22	<b>SETEL SERVIZI TECNICI SRL</b>	SeTeL is a leader in the field of Logistic Support Engineering. We provide consultancy, applications, technologies that guarantee the highest level of operational availability of Complex Systems. We operate in the Aeronautics, Naval, Railways, Space, Information & Communication Technology sectors.	<a href="http://setelgroup.it/">http://setelgroup.it/</a>
23	<b>SPACELAB SPA</b>	Spacelab S.p.A. focuses on the research and development of new technologies in the aerospace sector capable of bringing product innovations, as well as on the design of cutting-edge infrastructures for the experimentation of these technologies.	<a href="https://www.avio.com/">https://www.avio.com/</a>
24	<b>STAM SRL</b>	Stam experience builds on 20 years of support to big players in the space and defence fields, where engineering services were tailored to the needs of long term national and international programmes. Stam develops servo-actuators, hermetic sealing systems, test rigs and risk assessment solutions.	<a href="https://www.stamtech.com/">https://www.stamtech.com/</a>
25	<b>STUDIOMAPP SRL</b>	STUDIOMAPP is a Geo intelligence company specialised in satellite and aerial imagery AI analysis with the mission to provide information superiority to its clients for a safer and sustainable future.	<a href="http://www.studiomapp.com">www.studiomapp.com</a>
26	<b>TAITUS SOFTWARE ITALIA SRL</b>	Taitus Software Italia is a software development company specializing in advanced mission analysis, planning and simulation tools for space applications, with particular focus in Earth Observation.	<a href="http://www.taitussoftware.com">www.taitussoftware.com</a>
