

## Exhibiting Italian companies

	COMPANY NAME	COMPANY ACTIVITY DESCRIPTION	WEBSITE
1	ACMECUBO	<b>ACMECUBO</b> : is an engineering company specialized in research and development on enabling and innovative technologies. It operates on Defense and Aerospace, with national and international cooperation. (NATO, Boeing, Airbus, Thinklogical, etc.). Currently on: -Digital Twin, AI/ML for Space applications.	<a href="http://www.acme3.it/">http://www.acme3.it/</a>
2	ASITALY SRL	<b>Asitaly srl</b> is a company born in 2019 as a spinoff of the Ipazia Research Consortium. It started activity already in 2008. Asitaly is specialized in the supply of latest generation nanomaterials, graphene in its various forms, nanoparticles, carbon nanotubes, fullerenes etc.	<a href="http://www.asitaly.it/">http://www.asitaly.it/</a>
3	ELECTRON SOUCE CO SRL	<b>ELECTRONICS</b> goals: Relay, remote, sensing, Innovation	<a href="https://escitaly.com/portal/">https://escitaly.com/portal/</a>
4	LATITUDO 40 SRL	<b>Latitudo 40</b> offers an innovative data platform, based on Artificial Intelligence and Remote Sensing. It offers tools and information necessary to help cities and companies to become more sustainable and resilient to climate change.	<a href="http://www.latitudo40.com/">http://www.latitudo40.com/</a>
5	MED TECHNOLOGY SRL	<b>MED TECHNOLOGY</b> operates in the Aeronautical, Railway, Space, Military and Naval sectors. Company operates as representative and distributor of HIGH TECHNOLOGY products.	<a href="http://www.medtechnology.it/">http://www.medtechnology.it/</a>
6	PROESYS SRL	<b>IOT</b> technology for automation and industrial application	<a href="http://proesystech.com/">http://proesystech.com/</a>

7	PROGETTI SPECIALI ITALIANI	<p><b>Progetti Speciali Italiani Srl (PSI)</b> incorporated along the 2006 with the conviction that the deep changes in Italy on the aerospace sector need a modification also of the industrial structure.</p> <p>In particular, in front of the practical total concentration for the Aerospace companies in Finmeccanica and the practical foreign ownership of the major space companies, it is mandatory to recreate an effective growth of the indigenous companies based on the SME presence.</p> <p>With this in mind a group of manager with deep experience in the Aerospace Sector incorporated PSI with the mandate to operate in the following areas:</p> <ul style="list-style-type: none"> <li>- Aerospace</li> <li>- Defense</li> <li>- Homeland Security</li> <li>- Energy, in particular nuclear</li> </ul>	<a href="http://www.psi-space.eu/">http://www.psi-space.eu/</a>
8	RIMEDIA ITALIA SRL	<p><b>THE COMPANY</b> carries out scientific communication and e-learning projects in the specific area of space economy and with a specialization in earth observation, climate change and in the communication support to space missions.</p>	<a href="http://www.remediagroup.it/">http://www.remediagroup.it/</a>
9	RINA- INTERCONSULTING ENGINEERING SRL	<p>The acquisition augments <b>RINA's</b> existing expertise in safety-critical software engineering and complex electronic systems prototyping.</p>	<a href="https://www.rina.org/en/media/press/2021/03/31/interconsulting-space-defense">https://www.rina.org/en/media/press/2021/03/31/interconsulting-space-defense</a>
10	SAND & BIRCH STUDIO	<p>Design Packaging Special Projects Integrated support logistics engineering, aerospace, defense, transportation.</p>	<a href="https://www.sandbirch.com/">https://www.sandbirch.com/</a>
11	SE. T. EL. SRL	<p>Agritech data-driven solutions: integration of satellite data, drones and proprietary sensors with A.I.</p>	<a href="http://setelgroup.it/">http://setelgroup.it/</a>
12	TERRAVIONICS SRL	<p>Company operates in</p> <ul style="list-style-type: none"> <li>-proactive increase in production thanks to increased plant health;</li> <li>-contextual reduction of costs,</li> <li>-waste and complexity of the work;</li> <li>-increased sustainability of processes.</li> </ul>	<a href="http://www.terravionics.com/">http://www.terravionics.com/</a>
13	TITAN4	<p>Fresh from an incubation period in the ESA BIC program, <b>Titan4</b> specializes in processing and processing satellite data around the world using InSAR technology, on a millimeter scale, in an exclusively fast, economical, accurate and versatile way.</p>	<a href="http://www.titan4.it/">http://www.titan4.it/</a>

14	<b>ADVANCED ELECTRONICS BIOSTYTEM</b>	<b>ADVANCED ELECTRONIC BIOSTYSEM</b> is an Italian company specialized in field of biomedical microelectronics	<a href="http://www.aebiosystem.com/">http://www.aebiosystem.com/</a>
15	<b>ALMA SISTEMI</b>	<b>ALMA SISTEMI</b> is an Italian SME established in 2005 providing high-level consultancy in the space and defense market for industries and research centers. ALMA provides services in Project and Proposal/Bid Management, Business development, market analysis, System and Software Engineering in the frame of European Space Agency, European Union and Italian Space Agency programs. graphene in its various forms, nanoparticles, carbon nanotubes, fullerenes etc.	<a href="http://www.alma-sistemi.com/">http://www.alma-sistemi.com/</a>
16	<b>ARCA DYNAMICS</b>	<b>ARCA DYNAMICS</b> is company based in Rome providing space traffic management and Earth observation services using and operating proprietary CubeSats nanosatellites. They aim to make the space a smart, clean environment for today's society and future generations.	<a href="http://www.arcadynamics.com/">http://www.arcadynamics.com/</a>
17	<b>ASE ENGINEERING</b>	Consultancy for the space- economy sector	<a href="http://www.ase.engineering/">http://www.ase.engineering/</a>
18	<b>CELAB</b>	<b>CELAB</b> operates since 1997 in the field of testing and certification. The main areas in which it operates are: - military -aeronautics and aerospace -automotive -electrometrical -import-export -consumer electronics	<a href="http://www.celab.com/">http://www.celab.com/</a>
19	<b>CENRALE VALUTATIVA/TETHYS</b>	<b>La Centrale Valutativa</b> born in January 2006 as start-up by a multidisciplinary team of professionals. They operate in: -data service (open data, big data, surveys, panel data) - agriculture (Tethys-saving water) -environmental field (carbon foot print)	<a href="http://www.tethysfarming.com">www.tethysfarming.com</a> - <a href="http://www.centralevalutativa.it">www.centralevalutativa.it</a>
20	<b>DATA VISION SRL</b>	<b>DATA VISION SRL</b> was born in 1994 from the professional experiences of a group of highly specialized managers in the Information Technology world.	<a href="https://www.datavisionsrl.com/">https://www.datavisionsrl.com/</a>
21	<b>GTER SRL</b>	<b>GTER SRL</b> has been operating in the field of geographic and spatial data management for 10 years, with a strong focus on custom-made products and services and a propensity for technological development and research in the space economy.	<a href="http://www.gter.it/">http://www.gter.it/</a>

22	OPV SOLUTIONS	<p><b>OPV SOLUTIONS SRL</b> is a specialized consultant and production company, operating in various engineering areas including industrial, energetic and management field.</p> <p>OPV is a Certified Automotive Manufacturer with ATECO code with consolidated experience in industrial activities.</p> <p>OPV production was designed to be modular and flexible.</p>	<a href="http://www.opvsolutions.eu/">http://www.opvsolutions.eu/</a>
23	STUDIOMAPP	<p>Designed for a sustainable and safer future</p> <p>Engineered for information superiority to tackle climate, environmental and security challenges.</p> <p>They Combine science, geospatial data and artificial intelligence</p>	<a href="http://www.studiomapp.com/">http://www.studiomapp.com/</a>
24	TAITUS SOFTWARE	<p><b>Taitus Software Italia Srl</b> founded in 2004.</p> <p>Taitus Software Italia Srl is a software development company specializing in advanced mission analysis, planning and simulation tools for space applications, with particular focus on Earth Observation.</p>	<a href="http://www.taitussoftware.com/">http://www.taitussoftware.com/</a>
25	GMATICS SRL	<p><b>GMATICS</b> encourages and assists users with various levels of expertise in taking advantage of geospatial applications for their activities and business.</p>	<a href="http://www.gmatrics.eu/">http://www.gmatrics.eu/</a>
